

"What are some advantages to you for helping your customers create an ***Energy Star Energy Management Plan*** through ***Hawkeye Energy Solutions?***"

1. **More Projects** – Reducing your customer’s energy & utility usage by 15-45% (ASHRAE Journal, April 2011) will increase your customer’s profitability; which creates opportunities for more projects.
2. **Good Projects** – *Hawkeye Energy Solutions* will independently find energy conservation opportunities backed up with concrete operational data that you will have an *opportunity to install!*
3. **Keep ‘em local in the U.S.A.** – Increased profitability simply makes your customers more competitive and keeps them here, local and in the good old U.S.A.
4. **Value Added Contractor** – Your customers will credit you for helping them drive down their energy & utility cost year after year. This will secure your position as a reliable, up to date, value added contractor.
5. **Green Initiatives & Energy Policies** – Many of today’s companies are required by their customers to establish green initiatives and/or energy policies. *An Energy Star Energy Management Plan* through *Hawkeye* literally establishes the companies’ *green* initiatives. There is no more cost effective way to establish a plan that produces real energy & utility usage savings.
6. **Commissioning** – Hawkeye will enhance commissioning and retro commissioning projects. We will help you, help your customers, find and hold that *sweet spot* where solid HVAC system performance meets maximum energy efficiency. Real time energy & utility management is constant commissioning!
